WASHINGTON.

Secretary Thompson Takes a Formal Leave of the Cabinet.

The Senate Refuses to Concur in the House Resolution to Adjourn Through the Holidays.
Bills on the Private Calendar Occupy the Attention of the Lower House.

SENATE.
WASHINGTON, December 17.—After the chair had laid before the senate some communications from the secretary of war, transmitting reports in relation to the capture of the river and harbor, and a presentation of a memorial, Mr. Davis (W. Va.) reported favorably the house resolution for a recess from December 22, to January 5.

Mr. Beck said there were now a large number of bills on the calendar of the senate. There would be 250 bills for work after the 6th of January. The senate bill to be acted on, and all the appropriation bills and many other important measures which should be discussed. But little had been done so far, and it seemed to him that everything should not be left to the last. Mr. Windom would recollect how, toward the close of the last session, with himself, at night after night in the sun, to carry through what he called legislation. He expressed his opinion that measures would have to be discussed in the appropriation bills, and subsidies of all kinds would be taken on them.

Mr. McDonald favored a short recess for the holidays as was consistent with propriety. The resolution was disagreed to, Yeas 23, Nays 31.

Mr. Jones, of Florida, from the committee on public buildings and grounds, reported a bill appropriating \$250,000 for the construction of a new house in place of the one recently destroyed by fire at Pensacola, Florida. The bill was considered and passed.

Mr. Wallace introduced a bill for a uniform system of bankruptcy, which was referred to the judiciary committee.

A motion offered by Mr. Morgan, continuing the adjournment until the removal of the northern Chenyney, was concurred in.

Mr. Blaine offered a resolution, which was agreed to, directing the secretary of the treasury to report on the propriety of increasing the judges of the supreme court to thirteen.

At the expiration of the morning hour, the educational bill came up for consideration. Among the amendments made was one by Mr. Morgan, to amend the agricultural act, so as to authorize each state and territory to establish in said college, schools for the instruction of farmers in the various branches of technical education as are suitable to their sex. The bill was then passed by a vote of 41 to 6, and at 6:15 p. m., the senate adjourned until Monday.

HOUSE.
Private business had precedence in the house, where a bill to provide for two-thirds vote to set aside and consider other matters was introduced.

Mr. Forney, of Alabama, who has charge of the military academy appropriation bill, wanted to go on with it, but he was antagonized by gentlemen who wanted to consider private business.

The private business is so large that unless the hour to which private bills are entitled are devoted to it, much important legislation must be deferred. As it is, not a tithe of what is on the calendar can be passed.

The house decided to proceed with the private calendar, and accordingly went into committee of the whole.

The house engaged all the afternoon in the consideration of private bills, the majority of which were for pensions. Fifteen bills were disposed of, and an effort was made to adjourn over till Monday, but was defeated by a large majority, so there will be a session to-morrow for business, and it is possible the military bill will be disposed of.

CAPITAL NOTES.
The action of the senate in refusing to concur in the house resolution providing for an adjournment over the holidays, from the 23d nat. to January 5th, created considerable surprise.

The Smithsonian institute has received from the Vienna academy the announcement of the discovery, by M. Perme at Copenhagen, on December 16, at 9 o'clock, of a small bright comet in 18 degrees 40 minutes ascension, and 10 degrees 30 minutes declination, with daily motion of 5 minutes in right ascension and 40 minutes north.

BUFFALO'S BLAZE.

Ten Persons Lose Their Lives in the Burning of the Great Wall Paper Factory.

And Half a Million Dollars Goes up in Fire and Smoke.
Gen. Sherman Dislikes the Idea of Grant Being Made Captain-General.

BUFFALO, N. Y., December 17.—A big fire began here at six o'clock last evening in W. H. Bridge & Son's wall paper factory, which was situated on the corner of Main and Erie streets. The fire was caused by a gas lamp which had been left burning.

The fire spread rapidly, and in a few minutes the whole factory was in flames. The firemen were unable to get the fire under control, and the factory was completely destroyed. The loss was estimated at half a million dollars.

The fire caused the death of ten persons, and the injury of many others. The bodies of the dead were found in the ruins of the factory.
